TRAINING PROGRAM***

WE CARE AND SUPPORT.
WE TEACH AND NURTURE.

OUR HISTORY

Established on February 2007, PAD Foundation was then a Sending Organization for JITCO, a three-year skills training program between Japan and Philippines. We started teaching Japanese Language, Culture and Work Ethics to those who will go to Japan under the said program.

On 2010, when the three-year skills training program was transferred from TESDA to POEA, PAD Foundation could no longer stay as Sending Organization, that is why we reorganized our foundation to become a language training center, which can still handle preparatory training for JITCO trainees.

On July 2012, PAD Foundation was accredited by TESDA as a language training center.

With our experiences, we have improved and enhanced our Training Courses from Basic to Advance Levels to fit for the need of our clients and learning abilities of our trainees. We have evolved into an well-established Language Training Center.

EFFECTIVE LEARNING AND FAMILIARIZATION

- *Our modules are designed in order for a learner to acquire skills in Speaking, Reading, Writing, and Listening. We provide modified and customized textbooks to be able to provide our clients their needs for every aspects of learning. We prepare language lessons according to their future occupations in Japan.*
- *Our teaching methodologies are flexible so that we can teach with right approach according to the learner's capacity, and educational backgrounds.*
- *We strictly use classroom teaching and demand participation of each student not only for learning language but also for developing self-confidence. We always want to keep the open and fair treatment to each and every learner.*
- *We provide sample examinations, conduct review classes for taking Japanese Language Proficiency Test to determine the areas for improvements and further assessment.*
- *Our venue gives every learner a chance to explore while learning. Our resources and materials in library are free for use.*

- *We utilize media resources other than books to enhance familiarization. We let them watch movies and dramas during their break time*
- *Our teachers are open for consultations and queries after classes to clarify topic which was not clear during the class hours.*
- *We give classes on Culture and Work Ethics for them to easily cope with the living and work.*
- *We do not focus on language learning alone but we also give career guidance and orientation to give encouragement and realization for their future.*

PAD Foundation Training Program (350 hours)

- Japanese Language Training(294 hours)
- Work Ethics (28 hours)
- Japan's Cross Culture (28 hours)
